Compliance status	**84.89%**
Pages scanned:	**37**
Pages with issues:	**37**

Automated Checks

	Check	Responsibility	Guideline	Issues	Pages
A	Parent element is missing required children	Front-end Development	1.3.1	11	11 PAGES
A	SVG element with defined role is missing an accessible name	Content Authoring Front-end Development	1.1.1	0	0 PAGES
A	Image is missing alternative text	Content Authoring	1.1.1	0	0 PAGES

		Guideline			
		Front-end Development			
A	Non-text object element is missing an accessible name	Content Authoring UX Design	1.1.1	0	0 PAGES
A	Image button is missing an accessible name	Front-end Development	1.1.1	0	0 PAGES
A	Layout tables should have an empty summary attribute or none at all	Front-end Development UX Design	1.3.1	0	0 PAGES
A	Layout tables must not contain caption elements	Front-end Development UX Design	1.3.1	0	0 PAGES
A	Table summary and caption must be different	Front-end Development	1.3.1	0	0 PAGES
A	Complex data table is missing ID and/or header attributes to associate headers with data cells	Front-end Development UX Design	1.3.1	0	0 PAGES
A	Undefined ARIA attribute must not be used	Front-end Development	1.3.1	0	0 PAGES
A	ARIA state or property has invalid value	Front-end Development	1.3.1	0	0 PAGES

			Guideline		
A	ARIA element is missing required context	Front-end Development	1.3.1	0	0 PAGES
A	ARIA refers to a non-existing ID	Front-end Development	1.3.1	0	0 PAGES
A	Header attribute is referring to wrong ID or cell	Front-end Development	1.3.1	0	0 PAGES
A	Table header is not associated to any data cells	Front-end Development UX Design	1.3.1	0	0 PAGES
A	Heading is missing an accessible name	Content Authoring Front-end Development	1.3.1	0	0 PAGES
A	Link inside text is difficult to see or identify	UX Design Visual Design Front-end Development	1.4.1	0	0 PAGES
A	Scrollable content is not accessible using the keyboard	Front-end Development	2.1.1	0	0 PAGES
A	Iframe with interactive elements is not keyboard navigable	Front-end Development	2.1.1	0	0 PAGES

		Guideline			
A	Meta refresh should not cause the page to reload or redirect automatically after a short delay	Front-end Development	2.2.1	0	0 PAGES
A	Marquee element must not be used	Front-end Development	2.2.2	0	0 PAGES
A	Auto-redirect must not be used	Front-end Development	2.2.2	0	0 PAGES
A	Page is missing a title	Content Authoring Front-end Development	2.4.2	0	0 PAGES
A	Page is missing a language attribute	Front-end Development	3.1.1	0	0 PAGES
A	Page language attribute has invalid language tag	Front-end Development	3.1.1	0	0 PAGES
A	Element with role attributes is missing required states or properties	Front-end Development	4.1.2	0	0 PAGES
A	Form field is missing an accessible name	Front-end Development	4.1.2	0	0 PAGES
A	Menu item doesn't have an accessible name	Front-end Development	4.1.2	0	0 PAGES

			Guideline		
A	Element marked as hidden must not be included in tab navigation	Front-end Development	4.1.2	0	0 PAGES
A	Link is missing an accessible name	Content Authoring Front-end Development	4.1.2	0	0 PAGES
A	Iframe element is missing an accessible name	Content Authoring Front-end Development	4.1.2	0	0 PAGES
A	Elements intended as presentation-only contain focusable content	Front-end Development	4.1.2	0	0 PAGES
A	Button is missing an accessible name	UX Design Content Authoring Front-end Development	4.1.2	0	0 PAGES
A	Incorrect use of ARIA state or property	Front-end Development	4.1.2	0	0 PAGES
A	Role attribute is missing a valid value	Front-end Development	4.1.2	0	0 PAGES
AA	Orientation of the page should not be restricted	Visual Design Front-end Development	1.3.4	0	0 PAGES

		Guideline			
AA	Autocomplete attribute is missing a valid value	UX Design Front-end Development	1.3.5	0	0 PAGES
AA	Link text fails minimum contrast requirements	Visual Design	1.4.3	0	0 PAGES
AA	Text fails minimum contrast requirements	Visual Design	1.4.3	0	0 PAGES
AA	Element language attribute has invalid language tag	Front-end Development	3.1.2	0	0 PAGES

Assisted Checks

Check	Responsibility	Guideline	Issues	Pages
AA	Is the keyboard focus visible at all times?	Visual Design Front-end Development UX Design	2.4.7	1177	37 PAGES
A	Can all functionality be operated with keyboard?	Front-end Development	2.1.1	36	36 PAGES
A	Is keyboard focus trapped in any component?	UX Design Front-end Development	2.1.2	36	36 PAGES

			Guideline		
AA	Are important UI and graphical components distinguishable?	Visual Design	1.4.11	36	36 PAGES
AA	Does content that appears on hover or focus block important information or disappear before users can interact with it?	Front-end Development	1.4.13	36	36 PAGES
A	Are the hidden images decorative?	Front-end Development	1.1.1	46	33 PAGES
A	Is the image alternative text descriptive enough?	Front-end Development	1.1.1	42	33 PAGES
A	Is there non-decorative content in pseudo classes?	Front-end Development	1.3.1	238	33 PAGES
AA	Is the heading descriptive enough?	Content Authoring	2.4.6	74	33 PAGES
AA	Does the local language attibute match the language of the content?	Front-end Development	3.1.2	33	33 PAGES
A	Are p elements used as headers?	Content Authoring	1.3.1	202	32 PAGES
A	Is quote element used to mark up quotations?	Front-end Development UX Design	1.3.1	130	32 PAGES

		Guideline			
A	Are headings used for formatting?	UX Design Front-end Development	1.3.1	34	31 PAGES
AA	Is link text distinguishable in all interactive states? (Minimum)	Visual Design UX Design	1.4.3	22	9 PAGES
A	Do elements have the right semantic role?	Front-end Development	1.3.1	17	3 PAGES
A	Do image buttons have alt text?	Content Authoring UX Design	1.1.1	0	0 PAGES
A	Does audio element have text alternative?	Content Authoring	1.2.1	0	0 PAGES
A	Does visual-only video content have an accessible alternative?	Content Authoring	1.2.1	0	0 PAGES
A	Does audio content in a video have an accessible alternative?	Content Authoring	1.2.2	0	0 PAGES
A	Does video have an accessible alternative?	Content Authoring	1.2.3	0	0 PAGES
A	Is the pre element used to create a table?	Front-end Development UX Design	1.3.1	0	0 PAGES

			Guideline		
A	Is the data table summary describing the navigation and structure of the table?	Content Authoring UX Design	1.3.1	0	0 PAGES
A	Is table markup used for all table information consistently?	Front-end Development UX Design	1.3.1	0	0 PAGES
A	Are the table captions identifying the table?	Front-end Development	1.3.1	0	0 PAGES
A	Are all visual lists correctly coded as lists?	Front-end Development	1.3.1	0	0 PAGES
A	Does the layout table make sense when read line by line?	Front-end Development	1.3.2	0	0 PAGES
A	Are white space characters used for spacing?	Visual Design Content Authoring	1.3.2	0	0 PAGES
A	Are white space characters used to format tables?	Content Authoring Visual Design	1.3.2	0	0 PAGES
A	Is CSS modifying the visual layout and changing the meaning of content?	Front-end Development	1.3.2	0	0 PAGES

		Guideline			
A	Are enough instructions provided for everyone to understand and operate the content?	Content Authoring UX Design	1.3.3	0	0 PAGES
A	Is color alone used to convey meaning?	UX Design Visual Design	1.4.1	0	0 PAGES
A	Are users able to shut off content with sound?	Front-end Development UX Design	1.4.2	0	0 PAGES
A	Is the image a flickering GIF?	Visual Design	2.3.1	0	0 PAGES
A	Is there a mechanism to bypass blocks of repeated content?	Front-end Development	2.4.1	0	0 PAGES
A	Is the page title descriptive enough?	Content Authoring	2.4.2	0	0 PAGES
A	Are elements focused in a logical order when navigating with keyboard?	Visual Design UX Design	2.4.3	0	0 PAGES
A	Do links with the same name serve the same purpose?	Front-end Development	2.4.4	0	0 PAGES
A	Is the visible label of an interactive element part of the accessible name?	Front-end Development	2.5.3	0	0 PAGES

		Guideline			
A	Are there alternatives for features that require device or user motion?	Front-end Development	2.5.4	0	0 PAGES
A	Are input errors described in text?	UX Design Visual Design	3.3.1	0	0 PAGES
A	Do all input fields have permanently visible labels?	UX Design Content Authoring Front-end Development	3.3.2	0	0 PAGES
A	Do the iframe elements with same name have same purpose?	Content Authoring Front-end Development	4.1.2	0	0 PAGES
AA	Does the live video have captions?	Content Authoring	1.2.4	0	0 PAGES
AA	Do prerecorded videos have audio descriptions?	Content Authoring Front-end Development	1.2.5	0	0 PAGES
AA	Do autocomplete attributes align with their purpose?	Front-end Development	1.3.5	0	0 PAGES
AA	Does text over background image meet minimum contrast requirements?	Visual Design UX Design	1.4.3	0	0 PAGES

			Guideline		
AA	Does text on top of images have minimum contrast?	Visual Design Front-end Development	1.4.3	0	0 PAGES
AA	Do links on top of images have minimum contrast?	Visual Design Front-end Development	1.4.3	0	0 PAGES
AA	Do the images contain text?	UX Design Visual Design	1.4.5	0	0 PAGES
AA	Are users forced to scroll in two dimensions when zoomed in?	Front-end Development UX Design	1.4.10	0	0 PAGES
AA	Are users able to use the fonts, spacing, and font size of their choice, without loss of content?	Front-end Development Visual Design	1.4.12	0	0 PAGES
AA	Are the labels describing the input fields accurately?	Front-end Development UX Design	2.4.6	0	0 PAGES
AA	Are form submission errors helpful?	UX Design Content Authoring	3.3.3	0	0 PAGES
AA	If legal financial data is processed, are there safeguards for form submission?	UX Design	3.3.4	0	0 PAGES

		Guideline			
AA	Are status messages presented clearly to assistive technology users?	Front-end Development	4.1.3	0	0 PAGES
